

# Integrated Education and Training (IET) Updates

1

## Successful IET Programs in PA

- Pharmacy Technician
- Community Health Worker
- Nurse Aide
- Home Health Aide
- Teacher Assistant
- Office Administration Support
- Direct Care Worker
- Manufacturing Technician

2

## IET On-Demand Course

- On PD Portal
- Includes microlearning videos
- Includes meetings with course facilitator
- Aligns directly with IET planning tool
- For anyone who wants to learn about IET, not only for people who want to implement an IET program

3

3

- **Better aligned to planning tool**
- **Shorter application**
- **Option to submit regional and statewide IET**

### IET Proposal

Does the IET help adult learners obtain in-demand occupations faster than traditional programming?

Does the IET meet the needs of local employers?

4

4

### IET Lessons Learned

- Know your learners/frequent student surveys.
- Build strong relationships with employers and have conversation with employers about IET.
- Clarify entry requirements for IET and supports that will be provided during IET.
- Consider the assessments you use and how they align to the workforce area, occupational training provider requirements, and IET program.
- Have new partners observe existing IET program.

### Regional IET Promising Practices

1

Know what IETs are available in your region and how they might align to learners’ interests.

2

Share IET program requirements, schedule, location, and employment opportunities.

3

Don’t duplicate when you can coordinate and collaborate.

Statewide IET
