

Digital Literacy and Distance Education Courses 25-26

All courses are available as customized PD. For more information about any DLDE courses, contact Bethany Lezanic at blezanic@tiu11.org.

ON-DEMAND COURSES

Improving Real-Time Remote Instruction

Plan and facilitate a real-time remote instruction session where you will engage students by having them use at least one technology tool during the lesson.

Teaching with Generative AI

Learn what generative artificial intelligence is and explore how it can be used in the classroom.

Building Your Digital Skills

Assess your digital skill strengths and areas for growth, then work with a coach to improve.

Google Certified Educator Level 1

Integrate Google apps into your practice while preparing for the Google Certified Educator Level 1 exam.

Google Applied Digital Skills

Choose one or more Google Applied Digital Skills lessons that relate to your work, complete the lesson, apply what you learned, and reflect on the process.

Introduction to Workforce Prep Skills

Learn about the PA Foundation Skills and work with a student to use them to set an employment goal.

OTHER COURSES

Strengthening Your Distance Education Options

Critically evaluate your current distance education offerings and use data to develop a strategic action plan for improvement.

Building Learners' Digital Skills Using Instructional Routines

Learn about digital routines and create one for use in class.

Intake and Orientation for Distance Learning

Learn best practices for screening and orienting distance learners, evaluate your agency's current processes, and develop an action plan to address challenges.

Using a Learning Management System to Support Learners

Put a lesson on an LMS with at least one community-building activity and try it with students or a peer.

Designing Supplemental Distance Lessons – Available by Request

Learn the essentials of planning a distance learning lesson that will allow students to earn SDL time.
